

Remarks

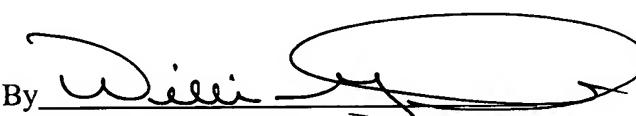

The claims have been cancelled and rewritten as new claims 11-26, eliminating multiple dependencies and following U.S. claim format. The specification has been amended to recite United States Patent and Trademark Office recommended headings and subheadings, and to correct minor translation errors. A Summary of the Invention paragraph and Abstract (separate page) have been added. No issue of new matter is raised by these amendments.

In the International Preliminary Examination Report of the PCT, the claims were indicated to have met all PCT requirements with regard to unity of invention, novelty, inventive step, and industrial utility. Early favorable consideration is respectfully requested.

Respectfully submitted,

ANDREAS BACHER ET AL.
